3. DIRECTORS' COMMENTARY

3.1 The market and prospects

According to the Bank of Namibia Economic Outlook Report, Namibia's GDP growth is projected to improve in 2022, mainly supported by strong performance from the mining industry. Real GDP growth is projected to increase to 3.2 % in 2022 before moderating slightly to 2.9% in 2023. The projected improvement is also on account of anticipated better growth rates across all industries.

For the financial year ending 30 June 2022 Paratus Telecommunications (Proprietary) Limited ("Paratus Namibia") delivered strong revenue growth of 15% against a backdrop of a weak local economy. The group remains well placed to grow revenues due to the continued demand for reliable Internet coupled with the ongoing rollout of last-mile infrastructure. The anticipated growth for the 2023 financial year is to be driven mostly by the expansion of our fiber and LTE network across Namibia and the occupation of the Data Centre, which was inaugurated on 4 August 2022.

For the financial year ended 30 June 2022, Paratus Namibia, the operating entity, realised recurring revenue of N\$343 million (30 June 2021: N\$305 million) which represents a growth of 13%. Non-recurring revenue, which represents Local Area Network installations and sale of Telecommunication Equipment, amounts to N\$43 million (30 June 2021: N\$30.8 million). This represents a growth of 41%. The growth is mainly attributable to a Local Area Network Installation from a new property development project.

The net profit before taxation, for Paratus Namibia, for the same period amounts to N\$ 47.0 million (30 June 2021: N\$40.8 million) and earnings before interest, taxation, depreciation and amortisation ("EBITDA") amounts to N\$114.2 million (30 June 2021: N\$94.4 million). This represents growth of 15.3% and 21%, respectively. The growth in profitability is mainly attributable to the overall revenue growth of 15% and the moderate increase of 10.2% in operating expenses, despite the growth of the national network and the increase in distributions centres across Namibia. The operating margins for the period under review is slightly lower than the previous reporting period and is mainly due to the lower margins realised from the higher non-recurring revenue.

For the 2023 financial year, a further N\$280 million investment into infrastructure was approved by the Board. This investment will mainly be earmarked for the following capex projects:

- Completion of the Data Center in Windhoek;
- Completion of the Equiano Cable Landing Station in Swakopmund, which landed on the Namibian coastline on 1 July 2022. The expected "Ready-For-Service" date is during first quarter of the 2023 calendar year;
- Fiber-to-the-X (FTTx) rollout; and
- Expansion of network infrastructure.

The capital expenditure is to be funded by a combination of own cash resources and the proceeds from the bond programme. An amount of N\$130 million is planned to be raised through the NSX approved bond programme during September 2022.

The directors are of the opinion that the continued aggressive investment in infrastructure assets bodes well for both revenue growth and improved operating margins.

3.2 Capital projects

For the year ended 30 June 2022 Paratus Namibia has invested N\$282 million in infrastructure (30 June 2021: N\$178 million). Of this total investment, N\$128 million was invested in the National fiber network. An amount of N\$23 million was invested towards the LTE networks in Windhoek, the coastal towns, and the North of Namibia.

A total amount of N\$35.2 million was invested in the Cable Landing Station building in Swakopmund, which has now been completed and is ready for service.

To date, N\$110 million was invested in the Data Center. The total construction cost is budgeted at N\$123 million.

Management considers EBITDA as an important operational performance measure, as it mirrors Paratus Namibia's ability to generate cash flows from operations. The disparity between profit after taxation and EBITDA stems from the large depreciation charges recorded on infrastructure deployed.

3.3 Funding

For the period under review, Paratus Namibia have funded approximately 50% of the total capital investment from operational cash flows. The investment in infrastructure bodes well for the group, as is evident from the improvement in the EBITDA margin, emanating from the cost savings realised by using own infrastructure, as well as adding customers to existing network infrastructure.

3.4 Events after the reporting period

On 16 Septemeber 2022 a second tranche of N\$130 million was raised through the listed Domestic Medium-Term Note Programme. The second tranche of this programme was well received with bids totalling N\$363 million. Three-year notes to the value of N\$30 million was issued at an interest rate of 275 basis points above the 3 Month ZAR JIBAR rate. Five-year notes to the value of N\$100 million was issued at an interest rate of 325 basis points above the 3 Month ZAR JIBAR rate.

3.5 Changes to the Board

There have been no changes to the board of directors.

3.6 Contingent liabilities

As at the date of approval of the financial results, the Board was not aware of any contingent liabilities.

3.7 Dividends declared

During the 2022 financial year the Group has declared dividends to the ordinary shareholders amounting to N\$ 9 744 625 (30 June 2021: N\$9 744 625).
